Company profile

Guangdong Whale Building Material is a private run business with many years of experience in sunshade products. We offer design, produce, installation and after-sale service of the aluminum sunshade products, courtyard gate and fence. All of material we use are aluminum alloy 6063 Grade A, with good quality surface treatment. The polycarbonate sheet material is German Bayer original material, which is 100% anti-UV, environment and innocuous.

Factory is located in Foshan Nanhai, where is the aluminum city. With 30 skilled workers and 20 office staff, covering an area of about 6000 square meters. We have the sufficient material in store, ensure the prompt delivery time with good quality.

We mainly work with house builder, contractor, property developer, construction company, design& architect company, as well as some house owners. From now on, we have offer the sun shade products for residential and commercial projects all over the world, and get the high praise and confirm.

We know you have choices when it comes to choose a building material vendor. Our professional work ethic and performance are a mainstay of Whale Building Material Co., Ltd. We work hard every day to make your vision to reality.
